SUMMARY

A proactive Computer Science student specializing in Python and full-stack web development. Proven ability to build hands-on AI-driven applications, supported by a strong foundation in SQL databases and software engineering principles.

SKILLS

- **Languages:** Python, JavaScript, C, SQL, Java
- **AI/ML:** Numpy, Pandas, Matplotlib, Seaborn, Scikit-learn
- **Frameworks & Libraries:** Django, FastAPI, React, DRF, ORM
- **Databases:** MySQL, PostgreSQL
- **Developer Tools:** Git, Docker, API Development, Postman

EDUCATION

Malla Reddy Engineering College

Bachelor of Technology in Computer Science(AIML)

CGPA: **8.83**

Sep 2023 – May 2027(Expected)

Sri Chaitanya Junior College

Board of Intermediate Education

Marks: **855**

Aug 2021 – Jun 2022

Sri Sai Praneetha High School

Secondary School Certificate

Marks: **593**

Jun 2021

INTERNSHIP EXPERIENCE

Undergraduate Research Assistant- Machine Learning

Research Assistant under Prof. Raghunath

Remote

Dec 2025 – present

- Collaborated with Prof. Raghunath on Hybrid Random Projection optimization, analyzing dataset characteristics and alpha parameter impacts to create prediction graphs for machine learning feature reduction .
- Conducted performance benchmarking of classification algorithms on reduced-dimension data, achieving 50-90% feature reduction while maintaining 92%+ accuracy, validated through comprehensive metrics including precision, recall, F1-score.

TEAM MREC (Tech Community)

Intern & Technical Lead

Full time

Sep 2024 – Present

- Supported seniors in planning and successfully conducting various community events throughout the academic year with dedication.
- Currently contributing technical expertise for events while guiding juniors in technology initiatives and development activities

Wexdi Software Solutions

Python Developer Intern & Team Lead

Remote

Jul 2025 – Dec 2025

- Led a 4-member development team in delivering high-quality Django solutions for a US-based client, consistently achieving high client satisfaction.
- Served as the primary technical point of contact in client meetings to translate business requirements into actionable development tasks.

PROJECTS

Smart Attendance System

[Code](#)

- Designed a system enabling touchless attendance marking, automated record management, real time dashboards, and improved academic monitoring for institutional efficiency.
- Implemented using Python, Django, face recognition, REST APIs, SQLite database, and role-based authentication with an interactive dashboard interface.

Speech Emotion Recognition using Deep Learning

[Code](#)

- Built deep learning-based emotion recognition system analyzing RAVDESS audio dataset containing 8 emotions, evaluating SVM, MLP, CNN models for classification accuracy.
- Finalized CNN architecture achieving 92% accuracy in emotion classification, demonstrating superior performance over SVM and MLP through comprehensive comparative analysis and validation.

CERTIFICATIONS

- **NPTEL Elite Certificate (IIT Madras):** Python for Data Science
- **NPTEL Certificate(IIT Kharagpur):** Problem Solving in C
- **Data visualization using Python:** Aimr Edu LLP
- **Participant:** Adobe Hackathon, Amazon ML Challenge, Tata Imagination Challenge, Encode
- **Microsoft Certificate:** Azure Ai Fundamentals
- **Unified Mentor Internship:** Machine Learning Intern
- **Microsoft (Recognized by National Council for Vocational Education and Training):** AI for Everyone
